

Life Group Questions
Faith and Science
Dr. Bryan Enderle

See Romans 1:20 (or vv18-23 for context).

From a science perspective, what is the author Paul saying about people and our world?

Refresh yourself on the concept of a worldview (i.e., how someone views the world). Compare and contrast the Christian worldview with the Naturalism (or atheistic) worldview. What assumptions does each one make, and how does that affect their outlook on the world? Why does your worldview make sense to you?

What is science? Can science prove or disprove God?

What question(s) do you have about how science and the Bible are compatible? How might you go about investigating your question(s)?

Considering the Explore God sermon series, what arguments for God have resonated with you?
